WORK EXPERIENCE

React Native Developer (Full-time, Remote – Contract)

January – March 2026

- Developed mobile screens and reusable components in a production React Native codebase
- Implemented dynamic theming system across the application
- Integrated REST APIs and Firebase Cloud Messaging (FCM) for push notifications
- Integrated AdMob (Google Mobile Ads SDK) for banner monetization
- Prepared release builds and published the application to Google Play

Frontend Developer | Mental Health Platform (Startup, Part-time, Remote)

January 2024 – Present

- Developed and published a cross-platform mobile app (React Native, TypeScript) on the App Store and Google Play
- Built an admin dashboard using React and Redux Toolkit with REST API integration and real-time updates via Socket.IO
- Implemented complex multi-step forms with validation (Formik)
- Integrated Firebase Authentication with Sign in with Apple and Google
